### **DETAILED ACTION**

This action is in response to Request for Continued Examination filed October 25, 2005 and Amendment after final rejection filed October 4, 2005. Claims 1, 4-6 and 9 have been amended and claims 10 and 11 have been cancelled as requested by the applicant.

#### ***Response to Arguments***

Applicant's arguments, see Amendment, filed October 4, 2005, with respect to claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn. Applicant argued that the prior art fails to teach or suggest the new limitations of claim 1.

#### ***Allowable Subject Matter***

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art fails to teach or suggest a device for coupling illumination of a microscope beam path and reflected light comprising at least one partially reflecting element being provided in the vicinity of a field diaphragm plane and reflecting light from a second light source into the beam path at a slight angle to the optical axis, the at least one

partially reflecting element, holder of a light conducting fiber and an optical system are combined in a mechanical unit that can be slid into the microscope.

The remaining claims depend from claim 1 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
